Each such assessment or charge, together with interest, costs and reasonable attorneys' fees, shall also be the personal obligation of the Owner of such Lot at the time when the assessment fell due. The personal obligation for delinquent assessments or charges shall not pass to an Owner's successors in title unless expressly assumed by them. Notwithstanding anything contained in this Declaration, any Declarant shall only be subject to one quarter (1/4) of the annual assessment obligation until the closing of any of its homes to a third-party purchaser, whereupon the third party purchaser, now Owner, shall be responsible for full dues and assessments as further outlined herein. Such reduction in annual assessment of Declarant's Lots shall expire three years after the recording of this Declaration.

Section 2. Purpose of Annual Assessments. The annual assessments leveled by the Association shall be uses as follows:

- (a) to maintain any landscaping within the boundaries of the Common Element;

Section 3. Maximum Annual Assessment. Until January 1 of the calendar year following the conveyance of the first Lot by the Declarant to another Owner, the maximum annual assessment of each Class T Lot shall be \$3,500.00 (the "Maximum Annual Assessment"), which Maximum Annual Assessment shall change annually in accordance with the Consumer Price Index:

- (a) The Maximum Annual Assessments established above may be Increased, effective January 1 of each calendar year following the conveyance of the first Lot by the Declarant to another Owner, without a vote of the membership, by an amount not to exceed 10% of the maximum annual assessment of the previous year. If the annual assessment is not increased by the maximum amount permitted under the terms of this provision, the difference between any actual increase which is made and the maximum increase permitted for that year shall be computed and the assessment may be increased by that amount in a future year, by no more than 15% in any given year, by action of the Board of Directors without a vote of the membership, in addition to the maximum increase permitted under the terms of the preceding sentence.
- (b) From and after January 1 of the year immediately following the conveyance of the first Lot to an Owner, said Maximum Annual Assessments may be increased without limitation by a vote of the members entitled to cast at least 2/3 of the votes of the association, who are voting, in person or by proxy, at a meeting duly called for this purpose; provided, however, during any period of Declarant control, Declarant must also consent to such action.
- (c) The Board of Directors may fix the annual assessments at amounts not in excess of the Maximum Annual Assessment. If the Board of Directors shall levy less than the Maximum Annual Assessment for any calendar year and thereafter; during such calendar year, determine that the important and essential functions of the Association cannot be funded by such lesser assessment, the Board may, by majority vote, levy a Supplemental Assessment. In no event shall the sum of the initial and Supplemental Assessments for that Year exceed the applicable Maximum Annual Assessment.

Section 4. Special Assessments for Capital Improvements. In addition to the annual assessments authorized above, the Association may levy, in any assessment year, a special assessment applicable to that year only for the purpose of defraying, in whole or in part, the cost of any construction, reconstruction, repair or replacement of any Common Elements, including improvements, fixtures, and personal property related thereto, provided that any such assessment requires the same assent of the Members as provided in Section 3 (b) of this Article. However, any special assessment related to Class T Lots only shall be paid entirely by Class T members.

Section 5. Assessment Rate. Both annual and special assessments must be fixed at a uniform rate within a class of Lots.

Section 6. Notice and Quorum for Any Action Authorized Under Sections 3 and 4. Written notice of any meeting called for the purpose of taking any action authorized under Section 3 or 4 shall be sent to all Members not less than thirty (30) days nor more than sixty (60) days in advance of the meeting. At such meeting, the presence of Members or of proxies entitled to cast twenty percent (20%) of all the votes of each Class of membership shall constitute a quorum. If the required quorum is not present, another meeting may be called subject to the same notice requirement. No subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

Section 7. Date of Commencement of Annual Assessments: Due Dates. The annual assessments provided for herein shall commence as to the Lots in a Phase on the first day of the first

month after the recording of an amendment to the Declaration incorporating the Lots in that Phase. Until such time as a Lot upon which a house is constructed is conveyed to the first Owner, the assessment rate for that Lot for any Declarant shall be 25% of the normal rate, for a period of three (3) years from the recording of this Declaration and shall be paid by the Owner of that Lot at the Closing of a lot to a third party homeowner. The first annual assessment shall be adjusted according to the number of months remaining in the calendar year. The Board of Directors shall fix the amount of the annual assessment against each Lot at least thirty (30) days in advance of each annual assessment period. Written notice of the annual assessment shall be sent to every Owner. The due dates shall be established by the Board of Directors. The Association shall, upon demand, and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether the assessments on a specified Lot have been paid. A properly executed certificate of the Association as to the status of assessments on a Lot is binding upon the Association as of the date of its issuance. In no event shall a mortgagee of a Lot be required to collect any unpaid assessments owned by the Owner of such Lot.

Section 8. Damage Assessment. In the event the Association finds that an Owner has damaged any of the Common Elements, the Association may levy an assessment on such Owner's Lot for the purpose of paying for the cost of any construction, reconstruction, repair or replacement of any damaged component of the common elements, including any sidewalks and street lighting fixtures serving the Development, and the amount of said assessment shall be a lien with respect to said Lot, enforceable as provided in Section 10 herein.

Section 9. Working Capital Assessment. In addition to the assessments authorized above, at the time of the first conveyance of a Lot upon which a residence has been constructed, the first occupant thereof shall pay to the Association an amount equal to two-twelfths (2/12ths) of the then current annual assessment established by the Association. Such funds shall be used by the Association to establish a Working Capital Fund, the purpose of which is to ensure that the Association will have sufficient monies available to meet its operational needs. No such payments made into the Working Capital fund shall be considered advance or current payment of regular assessments. All monies paid into the Working Capital Fund shall be held and administered by the Association in accordance with the terms of the Declaration and the Bylaws. To the extent necessary up to 50% of the Working Capital Fund may be transferred to the Reserve Fund by majority vote of the Board of Directors.

Section 10. Effect of Nonpayment of Assessments: Remedies of the Association. Any assessment not paid within thirty (30) days after the due date shall bear interest from the due date at the lesser of (i) eighteen percent (18%) per annum, or (ii) the then current maximum rate of interest allowed by law of the State of North Carolina. In addition to such interest charge, the delinquent Owner shall also pay such late charge as may have been therefore established by the Board of Directors of the Association to defray the costs arising because of late payment. The Association may bring an action at law against the delinquent Owner or foreclose the lien against the Lot, and interest, late payment charges, costs and reasonable attorneys' fees of such action or foreclosure shall be added to the amount of such assessment. No Owner may waive or otherwise escape liability for the assessments provided for herein by not using the common elements or abandoning his Lot. Failure to pay an assessment when due on a particular Lot shall not constitute an event of default under any mortgage or deed of trust encumbering such Lot.

Section 11. Subordination of the Lien to Mortgages. The Lien of the assessments provided for herein shall be subordinate to the lien of any first mortgage or deed of trust on a Lot or any mortgage

or deed of trust to the Declarant. Sale or transfer of any Lot shall not affect the assessment lien. However, the sale or transfer of any Lot pursuant to mortgage foreclosure, or any proceeding in lien thereof, shall extinguish the lien of such assessment as to payments which became due prior to such sale of transfer; provided, however, that the Board of Directors may, in its sole discretion, determine such unpaid assessments to be an annual or a special assessment, as applicable, collectable pro rata from all Owners, including the foreclosure sale purchaser. Such pro rata portions are payable by all Owners notwithstanding the fact that such pro rata portions may cause the annual assessment to be in excess of the maximum permitted under Section 3. No sale or transfer shall relieve the purchaser of such Lot from liability for any assessments thereafter becoming due, but the lien provided for herein shall continue to be subordinate to the lien of any mortgage or deed of trust as above provided.

ARTICLE V

ARCHITECTURAL CONTROL

Section 1. Architectural Committee. Except for improvements made upon the Properties, or any Lot, by any Declarant, or except as otherwise provided under this Declaration, no building, fence, wall or other structure or improvement shall be commenced, erected or maintained upon the Properties, nor shall any exterior addition to or change or alteration therein be made until the plans and specifications showing the nature, kind, shape, height, material and location of the same shall have been submitted to and approved in writing as to harmony or external design and location in relation to surrounding structures and topography by the Architectural Committee. For purposes of this Article V, the Declarant shall function as the Architectural Committee (the "Committee") so long as Declarant is a Class D Member of the Association and does not surrender its right of architectural control. After the termination of the Declarant right to be the Committee, the Board of Directors of the Association shall appoint the members of the Committee to carry out the functions set forth in this Article. In the event the Committee fails to approve or disapprove such design and location within thirty (30) days after said plans and specifications have been submitted to it, approval will not be required and this Article will be deemed to have been fully complied with.

Section 2. Definitions. For purposes of this Article V, the following terms shall have the following meanings unless the context clearly requires a different meaning:

- (a) "accessory building" means every detached garage, carport, tool shed, storage or utility building, detached guest quarters, detached servants' quarters or other similar building constructed on a lot or incidental thereto which is not a dwelling;
- (b) "buildings" means accessory buildings and dwellings;
- (c) "dwelling" means a building constructed for single family residential use but excluding detached servants' quarters and guest quarters; and
- (d) "improvements" or "structures" mean buildings, walls, fences, decks, patios, planters, statuary, terraces, swimming pools, tennis courts or anything else constructed or placed on a Lot.

Section 3. General Guidelines. The placement and construction of improvements on the Lots shall be subject to the following general requirements:

- (a) Since the establishment of standard inflexible building setback lines for the location of dwellings on Lots tends to force construction of dwellings both directly behind and directly to the side of other dwellings with detrimental effects on privacy, preservation of important trees, and other concerns, no specific setback lines are established by these covenants except as shown on the Map, which comply with the regulations and guidelines of the applicable governmental authorities. In order to assure, however, that location of dwellings will be staggered where practical and appropriate, so that the maximum amount of view will be available to each dwelling, and that all structures will be located with regard to the topography of each individual Lot, taking into consideration the elevation contours of the Lot, the location of large trees and fields and similar considerations, the Declarant reserves unto itself, its successors and assigns, the right to control absolutely and solely to decide the precise site and location of any structure, improvement, dwelling, building, and accessory building upon all Lots and every Lot within the subdivision; provided, however, that such location shall be determined only after reasonable opportunity is afforded the Owner to recommend a specific site, and in any event, all buildings shall be constructed beyond the minimum setback lines established on the Map.
- (b) All storage areas and facilities must be screened and hidden from view.
- (c) Unless specifically otherwise approved in writing by the Committee, all structures constructed or placed on any Lot shall be built of substantially new materials and no used structures shall be relocated or placed on any such Lot.
- (d) All structures approved by the Committee must be completed within one (1) year after the receipt of such approval; provided, however, the Committee may waive this requirement if construction delays have been caused by strikes, war, fire, acts of God or other events which render the completion of construction within such time impossible.
- (e) All driveways, turning areas and parking areas shall be paved and must be completed prior to the occupancy of any dwelling on the Lot. If any driveway is to cross a drainage ditch, the Owner will be required to install, at his own expense, all necessary culverts and coverings prior to the commencement of any other construction on the Lot. The installation of the culvert and any covering must be approved by the Committee and by any local, state or other governing agency or authority.
- (f) The Committee shall have the right to approve or disapprove the design and construction of all mailboxes.
- (g) The Committee shall have the right to approve decorative statues, birdbaths, fountains, ornaments, figurines, or any other decorative fixture in the front or side yard.

Section 4. Approval of Plans, Specifications, and Construction. In addition to the requirements imposed by all applicable governmental agencies governing the issuance of building

permits and certificates of occupancy, no structure shall be erected on any Lot without the approval of the Committee as provided in this Section.

- (a) Prior to commencing any construction or reconstruction on a lot, the Owner thereof shall submit to the Committee one set of all building plans and specifications (the "Plans") covering such construction which have been prepared by a qualified registered architect or reviewed, approved and sealed by a registered architect for the specific use of the Owner submitting the same. The Plans shall contain the following: (i) foundation plans, (ii) elevation drawings of all exterior walls, (iii) roof plan, (iv) plot plan showing location and orientation of all structures proposed to be built on the Lot, (v) the square footage of the proposed structures on a floor-by-floor basis, (vi) a list and description of all proposed building materials, and (vii) the location of any driveway, and, where the driveway is to cross a drainage ditch adjacent to any roadway, the installation of the culvert and covering to be used under the proposed driveway.

(b) The Committee shall have the absolute and exclusive right to refuse to approve the proposed Plans. In passing upon such Plans, the Committee may take into consideration in the suitability and desirability of the proposed construction and the proposed materials for the Lot involved, the harmony of the external design with the natural features, the existing structures of the surrounding neighborhood, and the appearance of such proposed improvements as viewed from neighboring Lots. Refusal to approve the proposed Plans may be based by the Committee on any grounds, including purely aesthetic considerations. If the Committee approves the construction of such improvements, it shall issue a letter evidencing such approval, which approval, for any Special Declarant, includes the right to utilize the approved plans throughout the Property without need for further approvals. No alterations in the external appearances of any structure shall be made without approval by the Committee as provided herein; provided, however, that no approval by the Committee granted hereunder shall constitute or be construed as approval by Declarant or any other person of the structural stability or quality of any structure.

(c) Upon completion of approved construction, the Committee shall inspect the construction to ensure that the approved Plans were complied with by the Owner. If the construction is approved by the Committee and the Owner so requests, the Committee will issue to the Owner a letter of compliance. The letter of compliance shall be issued by the Committee without fee; provided, however, that in the event that the Committee's first inspection of the construction reveals deviations or deficiencies from the approved Plans, the Committee may charge a fee of \$50 for every subsequent inspection which is necessary to ensure compliance with the approved Plans. Any such fee must be paid before the issuance of the compliance letter.

(d) Notwithstanding the foregoing, the Declarant shall not be subject to the provisions set forth in this Article V, Section 4.

ARTICLE VI

EXTERIOR MAINTENANCE AND PARTY WALLS

Section 1. Exterior Maintenance. In addition to maintenance of the common elements, the Association shall provide exterior maintenance upon each Class T Lot which is subject to assessment hereunder, as follows: paint and/or stain the exterior of the townhouses, repair, replace and care for roofs (excluding the structural roof system of each unit), exterior building surfaces, trees and shrubs (excluding those planed by an Owner), grass, walks, mailboxes, and other exterior improvements. Such exterior maintenance shall not include glass surfaces. Further, the Owner of any Class T Lot may, at his election, plant flowers in the front and rear beds. If any, established by Declarant in developing the Lot, provided that such maintenance by the Owner does not hinder the Association in performing its maintenance of the exterior of the house and the remaining yard spaces. No such maintenance by a Lot Owner shall reduce the assessment payable by him to the Association. The Owner shall not plant any vegetation in the front yard except with the prior written approval of the Association. If an Owner shall erect a fence that encloses a portion of his Lot, the Association shall not be liable for a repair or maintenance within the fenced-in area or for the fence structure.

Any assessment(s) for the exterior maintenance of the Class T Lots shall be paid by the Class T Lot owners only. (As a matter of information to future Members of the Association, the Declarant wishes to make it known that due to differing amounts of exposure to the elements and other factors, some dwellings may require more maintenance than others. It is in the best interest of the entire Association that all units be properly maintained and the Association shall be required to provide such maintenance provided for herein and make a uniform charge without regard to the actual cost of maintenance of each dwelling.)

In the event that the need for maintenance or repair is caused through the willful or negligent act to the Owner, his family, guest, or invites, the cost of such maintenance or repairs shall be added to and become a part of the assessment to which such Lot is subject. The Association is hereby granted an easement right of access to go upon any Lot for performance of repairs or maintenance, the responsibility of which is the Association's hereunder.

Section 2. Party Walls.

(a) General Rules of Law to Apply. Each wall which is built as a part of the original construction of the homes upon the Properties and placed on the dividing line between the Class T Lots shall constitute a party wall, and, to the extent and inconsistent with the provisions of this Article, the general rules of law regarding party walls and liability for property damage due to the negligence or willful acts or omissions shall apply thereto. No alterations may be made to any party wall other than alterations to the interior surfaces.

(b) Sharing of Repair and Maintenance. The cost of reasonable repair and maintenance of a party wall shall be shared by the Owners who make use of the wall in proportion to such use, and any insurance policy shall include condominium type provisions which conform to same.

(c) Destruction by Fire or Other Casualty. If a party wall is destroyed and damaged by fire or other casualty, any Owner who has used the wall may restore it, and if the other Owners thereafter make use of the wall, they shall contribute to the cost of restoration thereof in proportion to such use without prejudice, however, to the right of any such Owners to call for a larger contribution from the others under any rule of law regarding liability for negligent or willful acts or omissions.

(d) Weatherproofing. Notwithstanding any other provision of this Article, an Owner who by his negligent or willful act causes the party wall to be exposed to the elements shall bear the whole cost of furnishing the necessary protection against such elements.

(c) Right to Contribution Runs With Land. The right of any Owner to contribution from any other Owner under this Article shall be appurtenant to the land and shall pass to such Owner's successors in title.

(f) Arbitration. In the event of any dispute arising concerning a party wall or under the provisions of this Article, the Declarant, in its sole discretion, shall make the final determination(s) whose decision controls.

ARTICLE VII

Obligations Regarding Stormwater Facilities

The Property includes one or more stormwater management facilities (hereafter "Facility/ies") that is/are the perpetual responsibility of the Association. Such Facilities are the subject of a Stormwater Facility Agreement and Covenants ("Stormwater Agreement") between Declarant, the Association, and the City of Durham ("the City") that is binding on the Association. The Stormwater Agreement is recorded at **DB 8665 Page 677**, Durham County Register of Deeds. The Property subject to that Stormwater Agreement is the "Property" referred to in this Article. The Stormwater Facilities must be maintained in accordance with City Requirements, which include all ordinances, policies, standards, and maintenance protocols and in accordance with the recorded Stormwater Agreement. In particular the City's current "Owner's Maintenance Guide for Stormwater BMPs Constructed in the City of Durham" (available at the time of recording this document at <http://durhamnc.gov/DocumentCenter!View/2239> and the operation and maintenance manual prepared specifically for the Facility/ies contain requirements that apply to the Association's Facilities.

Nothing in the remaining Article of these Restrictive Covenants filed by Declarant as part of this Declaration or any subsequent modifications of this Declaration may reduce the Association's or Lot Owners' obligations with regard to the Facility/ies. Such additional covenants may increase the obligations or provide for additional enforcement options.

The Stormwater Facility/ies and their location are as follows:

- i. One wet detention pond (WPI -NORTH) designed to have a drainage area of 9.08 acres, a design storm surface area of 17,727 square feet and a design storm storage volume of 46,909 cubic feet;
